F. Institutional set-up for liquidity risk management:

Liquidity represents the ability of the company to generate sufficient cash flow to meet financial obligations, both under normal and stressed conditions, without liquidating assets or raising funds at unfavourable terms. The operations of Companies give rise to Asset Liability mismatches and liquidity risks.

In order to address these risks, the Company has a Board approved Liquidity Risk Management Policy in place prepared on the basis of RBI guidelines and internal factors specific to our business. The Board of the company has setup an Asset Liability Management Committee to review the liquidity risk. The Company also undertakes liquidity risk stress testing at reasonable intervals. The policy is reviewed as needed or whenever necessary.
